

AQUACARE 8440 Floor Clean Concentrate

AQUACARE 8440 Floor Clean Concentrate is a powerful detergent used for cleaning Polycure's range of floor coatings. AQUACARE Floor Clean Concentrate is designed to help the floor owner to maintain and revitalise natural timber floors. The environmentally friendly formulation has been specifically prepared to keep floors coated with Polycure's floor coating system in pristine condition.

Advantages

- Easy to apply – can be applied by lint free mop or water based applicator no technical skill necessary.
- Safe to Use – Water based, low odour formulation.
- Fast Drying – Minimal disruption to building occupants.
- Versatile – Can be used to rejuvenate floors that have been previously coated with an AQUAPRO, NATUROIL, POLYTHANE or DURAPOL coating systems.
- Economical – One litre of AQUACARE 8440 Floor Clean Concentrate makes up to 51 Litres of cleaning solution.

Typical Applications

Tongue and groove timber, parquetry or particle board, engineered, floating and solid timber flooring

Dry Time

15-30 minutes (at 20°C).

Application Equipment

A clean lint free mop or squeegee sponge mop

Mixing Ratio

Lightly Soiled Surface	1 Part AQUACARE 8440 to 50 Parts water. E.g. 20ml per litre (20ml = 1 Capful).
Medium Soiled Surface	1 Part AQUACARE 8440 to 20 Parts water. E.g. 50ml per litre (50ml = 2½ Capfuls).

Application

- Dilute AQUACARE Floor Clean Concentrate with water to the required strength
- Allow the detergent to react with the grime on the floor for approximately 5 minutes
- Work with your mop to remove stubborn grime and dirt
- Remove excess water with your mop and allow the surface to dry
- Repeat the process for stubborn areas

AQUACARE 8440

Floor clean concentrate.
